The National Skills Competition Ongwediva 2023 Technical and Vocational Education and Training Careers Exhibition has a singular focus on introducing the wide array of viable career options that exist within the technical and vocational sector, to learners and parents, alike. Our focus is on interactivity, simulation, virtual reality and demonstration. We don't want to tell school learners what technical and vocational professionals do. On the contrary, we want to show them what they do.

Join in and become part of this exciting and interactive platform. Register to exhibit and help us as we leverage promote technical and vocational careers in Namibia, and on the continent at large!
